A transformational global learning journey, anchored in China

CEIBS Global EMBA, ranked in top 2 globally for six consecutive years, is a part-time programme that balances China Depth and Global Breadth and develops responsible global business leaders. The programme is a transformational self-development journey, allowing each student to step outside their everyday work environment and see business challenges from a whole new perspective.

With modules available in more than 20 destinations worldwide, a diverse student body from over 20 countries and regions, and two integrated tracks running between China, Europe and Africa, CEIBS Global EMBA provides unparalleled opportunities for participants to expand their global network, while plugging into China's largest business school alumni network and to take their career and personal development to the next level.

Just like a ship that requires an able captain to steer it safely to its destination, the current uncertain business environment requires managers who are not just leaders, but individuals who are responsible, empathetic and agile enough to take on unprecedented challenges as we move to the next stage in the evolution of the business world – a world where China plays a critical role in shaping the future. Underpinning the 24-month Global EMBA learning journey is the programme's leadership dimension, as we prepare executives to think and act as global leaders who can make a lasting positive impact, not just on their own organisation, but on the wider society as well.

Professor of Economics, Associate Dean, Global Executive MBA

Go Beyond Yourself

Beyond Diversity

The Global EMBA classroom is truly diverse, with executives from different nationalities, industries, functional backgrounds and company types, allowing you to step outside your own environment and see business from a whole new perspective.

Beyond Leadership

Personal and professional self-development sits at the core of the programme. You will be continually challenged and inspired through immersive, experiential leadership exercises, helping you understand your own leadership style and blind spots.

Beyond Business

CEIBS Global EMBA provides a new vision of global leadership, with a strong focus on emerging economies. You will be challenged to evaluate the social impact of your business decisions on wider society.

Beyond Theories

CEIBS' world-class faculty provide cutting-edge knowledge and case studies, while challenging you to apply your learning directly to your organisation.

Beyond your Comfort Zone

The Global EMBA is a place where you can take risks, make mistakes and learn from them, away from the pressures of your everyday workplace.

Beyond Global

With a global student body, diverse faculty, and the opportunity to learn in more than 20 destinations worldwide, the Global EMBA provides a customised global journey that will comprehensively expand your own horizons.

One of the greatest benefits of the Global EMBA is the interaction with your classmates, where the classroom dynamics will challenge your own vision of the world. The classroom is a uniquely diverse place, where you will find a variety of decision-makers from vastly different backgrounds.

The classroom diversity runs deeper than merely nationality. You will be exposed to classmates from a wide range of different industries, functional backgrounds and company types.

Every business case and topic discussed in class will be examined through the prism of this enriching depth of diversity and divergent world views.

FT EMBA
2025 RANKING

My personal example demonstrates that attending CEIBS Global EMBA can be truly transformational to one's career. At the time when I joined CEIBS back in 2009, I was managing a small regional business unit. Ten years after completing my CEIBS Global EMBA, I am a CEO of a globally-leading organization with close to 50,000 employees around the world. CEIBS Global EMBA challenged my thinking, expanded my network and gave me the confidence and the toolkit with which to address the most complex business issues of today and tomorrow.

Flexible Format for Today's Business Leaders

The CEIBS Global EMBA provides maximum flexibility for its participants in the following ways:

- 1** Students may choose between two separate but integrated tracks: the **Single Module Track** (attend courses every month for 4 days) and the **Double Module Track** (attend courses every two months for 8 days)
- 2** Students may switch courses between tracks/classes
- 3** Elective options are available across all 5 CEIBS campuses worldwide, and other overseas cities

The Single Module Track and Double Module Track feature identical content and are delivered by the same faculty members, as well as following the same admission criteria. Both tracks will mix for the Leadership Modules, some core courses and some electives.

Leadership Modules Global Modules

Returning to campus to participate in the CEIBS Global EMBA programme is one of the best decisions I have ever made. It accelerated my transformational journey and honed my ability to shape various business strategies while augmenting my organisational leadership skills. To me, these are the defining characteristics of an effective executive-level leader. What my CEIBS professors offered me during classes and my real-life learning experiences, all shared with and improved by my classmates, helped me to expand my horizons, broaden various business viewpoints and areas of knowledge, and - most importantly - made me a better person, not just a better leader.

Jessie Zhang Global EMBA 2018

Amazing and unforgettable experience. The CEIBS Global EMBA programme overall is very well-adapted to the current volatile business environment, comprising a great balance of unique China and overseas experiences. We were exposed to real-life issues with appropriate pragmatic solutions to current challenges. The learning process is complemented with great professors and a friendship developed with like-minded individuals from diverse cultures, academic backgrounds, and industries. This global programme and the self-reflections it spurs have allowed me to successfully reshape my personal transformational journey. CEIBS has become a family, with classmates and faculty continuing to support and develop my future needs.

Capstone Project

The Capstone Project, which takes place during the last 12 months of the programme, provides participants with a unique opportunity to apply what they have learned in a practical business context. Participants will tackle a real-life strategic problem or challenge currently facing a classmate's organisation, giving the project real-world applicability. The project is designed for participants to blend management theory with business practice as they 'connect the dots' and integrate the different business fundamentals that they have learned throughout the programme.

Students will form groups of 5-7 classmates and each group is assigned a CEIBS faculty member who will guide them through the entire project with in-depth feedback and instruction. Each team will produce a 30-page report, which will then be orally defended by all team members in front of a panel of professors.

Having worked with all manner of MNCs these many years, I'm keen to learn from my CEIBS Global EMBA classmates and explore different business profiles and operational setups. Exposure to different corporate profiles and networks helps bring out unique business strategy considerations, challenges and trade-offs. No one size fits all, especially in today's business landscape. Equally, being adaptive is critical when the world is at such an uncertain juncture. Also having a strong network that is cross border elevates opportunities for professional and personal growth. I look forward to the CEIBS programme being experiential, with real-world case studies, company visits, and opportunities to learn from faculty members who have actual experience running businesses.

Become a leader among leaders

Helping you develop further as a leader is a critical component of the CEIBS Global EMBA. Throughout the programme students will be continually challenged and inspired through immersive, experiential leadership exercises, helping you understand your own leadership style and blind spots.

Further than that, the Global EMBA aims to develop empathetic, responsible business leaders who are able to create a lasting impact, not only on their own organisations, but also on broader society. For this reason, aspects of Corporate Social Responsibility are weaved into all the leadership components in the programme to contribute to the programme’s vision of developing responsible leaders who are well-versed in China Depth and Global Breadth.

There are several major touchpoints on leadership and ESG throughout the programme:

Opening Leadership Module

- Classroom lectures
- Coaching sessions
- Peer review
- Outdoor exercises
- Self-review
- CSR

Each participant assigned an Executive Coach for the week

ESG Track
Action and Reflection I:
Ethics and Social Responsibility

Mid-term Leadership Module

- Leading Change
- Leadership Within
- Team Coaching

Organizational Behavior
& Managing Diversity in Organizations

ESG Track
Action and Reflection II:
Social Enterprise

ESG Track
Action and Reflection III:
Sustainable Strategy

Exit Module & Action Reflection

- Understand your individual leadership strengths and weaknesses
- Manage conflicts through successful leadership transactions
- Develop resilience in the face of adversity
- Embrace lifelong learning to sustain your leadership performance

ESG Track
Action and Reflection IV:
Towards a Carbon-Free World

CEIBS Global EMBA not only helped me grow from a functional leader to a real business leader, it truly empowered me as a global leader with China Depth and Global Breadth. With classmates from all over the world, across various industries and with different educational, cultural, and professional backgrounds, I enjoyed our interactions and treasured everyone’s input. The social, professional, and academic value CEIBS brought me are equally pivotal, but I believe it is always people that makes the difference. CEIBS represents a journey where talented people meet, share and grow together.

CEIBS Global EMBA has been a wonderful journey for both my career and my life. The knowledge, leadership and self-awareness I learned here empowered me to leave my comfort zone and start a new career working within the internet ecosystem. I took almost all the overseas modules available, which brought me an overview on the overseas markets which helped my current career in managing a real global business across Europe, the US and Asia Pacific. Our class built up lifelong friendships where we can discuss our career paths and business development opportunities while sharing in each other's successes and failures after graduation.

China Depth Global Breadth

“

During times of great economic uncertainty, business leaders want to learn more, to focus more on their personal development. Given the wide-ranging challenges we face today, broadening your global horizons while deepening your understanding of business in China is a great investment. China is an unavoidable partner and competitor in global business today, and there is no substitute for being here, on the ground, to experience China's business culture in person. The GEMBA programme offers its students the opportunity to learn alongside the world's top professors and their fellow executives, drawn from different countries and industries, providing you with unmatched learning experiences.

Drawing upon my experience as a healthcare professional, I've witnessed the challenges within Ghana's healthcare system, motivating me to establish Isabella HealthCare Services—a company specializing in medical supply and consulting. This initiative has since expanded into Isabella Med-Tech, a venture focused on manufacturing medical devices. By enrolling in the CEIBS Global EMBA programme, I aim to receive formal training that will enhance my leadership skills and empower me to develop an innovative and sustainable enterprise. Recognizing the importance of cultivating a robust global network and gaining a broader perspective for business success, my goal over the next 5 years is to elevate the quality of healthcare delivery beyond Ghana. CEIBS perfectly aligns with my vision of creating an impactful business. The programme's commitment to diversity and inclusivity excites me, as it promises opportunities to learn from global peers and professors fueling my enthusiasm for the journey ahead.
